

New
Renault KOLEOS

Assert your demands

New Renault Koleos broadens your outlook. A previously unseen alliance of power and refinement, its assertive design pushes the boundaries of what is expected and expresses itself with bold style. Its confident stature inspires respect. An SUV with large shoulders and muscular side panels, its robust front end, broad tyres and large wheelbase give it the look of a partner that can rise to any challenge. Renault Koleos takes you further, whatever route or adventure you want to pursue.

The art of drawing attention

Renault Koleos embodies new aspirations. Charismatic, with a sense of detail and personality enhanced by its sleek appearance and athletic curves. The chrome inserts that start at the headlamps underline the vehicle's dynamism and strength of character in an elegant and singular fashion. The striking forms of the full LED lighting signature attract attention and makes an impression. Right down to the robust look of the 18" two-tone alloy wheels, Koleos reflects your desire to get ahead.

Rise to every challenge

Behind its chic urban styling, Koleos has the DNA of a true 4X4. Experience every day as a new adventure and go off the beaten track with ALL MODE 4x4-i technology. Simply flip the switch located next to the steering wheel to change from 2WD to LOCK mode and benefit from permanent full transmission to help deal with obstacles. Push the boundaries! With Renault Koleos, the world is as easy to cross as it is to impress.

The journey starts with the interior

As soon as you settle on board, you already feel as if you are somewhere else. Nothing here is left to chance. Everything is a step above: the materials, the satin finish on the chrome inserts, and the finely stitched leather. The panoramic sunroof offers a unique viewpoint while the driver's seat surrounds you in reassuring comfort. Drive an SUV that offers you all of the advantages of an upmarket sedan. The raised seating position lets you master the road, and the architecture of the driving position bordered by the central console reinforces the feeling of protection. Grab handles serve as a reminder you're in a real 4X4. Feel good instantly.

Intuitive technology, instant pleasure

The technology provides you with all the new on-board experiences that Renault has to offer. A complete, intuitive universe of instant pleasure awaits you on board Koleos. Immerse yourself in a rich acoustic experience as powerful as a live concert with the Bose® audio system. Configure the display on the «TFT» screens on the dashboard, and choose your information using the 5 themes on offer. The complete lighting environment in the cabin will harmonise. Go further and explore the intuitive world of the R-LINK 2 connected 8.7" tablet, fully control the vehicle's functions including multimedia, navigation, Bluetooth®, radio and driving assistance systems. On arrival at your destination, a simple press of the switch engages Easy Park Assist and your vehicle parks itself. Renault Koleos rises to the challenge: it offers you the best technology and makes it easy to use.

Every aspect of comfort

Renault Koleos is ambitious just like you, and takes every aspect of you and your passengers' comfort into account, offering them more generous legroom. A compartment for keeping your drinks cold can be found at the front and the rear. Well-being is everywhere for everyone on board Koleos. Programme engine starting with Remote Engine Start technology, start it remotely with the doors closed using a specific key, which also activates atmospheric temperature regulation, demisting and controls the temperature of the ventilated front seats. The inviting and enveloping seating position is at the top of the range in this category. Welcome to comfort that goes the extra mile.

Freedom of movement

You approach and it reacts, switching on daytime running lights, unlocking doors, and extending door mirrors. Do you need to load luggage? Use your remote key or place your foot underneath the rear bumper; the motorised tailgate opens automatically providing you with access within just 5 seconds to the 550dm³ luggage compartment. Organise modular space to your requirements in a single movement with the Easy Break system. The rear seats fold down to create a flat floor space. The low loading sill makes it easier to place your more cumbersome items inside. New Koleos, designed for living a life of adventure.
